Vispa 35 E/B

The revolutionary scrubbing machine that scrubs, dries and sanitizes in one pass. Ideal for small, congested areas and maintenance cleaning. Suitable for hotels, hospitals, offices, service stations, recreational facilities, educational institution, etc.

- Ergonomic design for user comfort
- Maximum cleaning reach-highly maneuverable
- Increased Productivity-Value for money
- Superior suction motor & squeegee blades for perfect drying
- Extreme flexibility given by 180° movement of handle bar

L-20

L20 B-E is a walk-behind scrubbing machine available in electric or battery versions, with 1 disc brush of 50cm working width.

- It can be used even by untrained operators
- High productivity and reduced consumption levels
- Squeegee made of reinforced, corrosion resistant plastic material
- Easy maintenance at the end of the work
- Easy to move from one place to another
- The brush head made of aluminum is robust and corrosion resistant (only for B versions)

Abila 50 E/B

An extremely maneuverable scrubbing machine with 50 cms width - is suitable for most areas needing maintenance cleaning. Its extremely low noise levels together with the possibility to use microfibre pads, make it especially suitable for cleaning community areas such as gyms & hospitals or public & private medical institutions.

They stand out in their segment thanks to:

- The category-leading performance
- The tank capacity
- The silence, which offers high work comfort
- The reliability
- The ease of use
- The innovative design
- Limited operating costs

ESCAMAX 510

The ESCAMAX PRO escalator cleaning machine has escalator cleaning components with integrated water spraying and brushing. This truly solve the problem of washing escalators. It is a special cleaning machine for electric escalators, electric step ladders, electric slope ladders and plane conveyors. The brush can go deep into the groove to clean stubborn stains, grit, dust, hair and other stains on the bottom and recycle it into the machine's sewage tank. It can be put into use immediately after cleaning.

Agila

Agila is a range of battery powered walk-behind scrubbing machine offering high performances for maintenance floor cleaning. The Agila 50/50B Comes with 50 cm working width with 50 liters tank capacity.

Whether you're looking for a scrubbing machine to clean small or middle-sized areas, there's an Agila to suit you!

In fact, Agila stands out for its compact dimensions, while being reliable and rugged. Such qualities make it the ideal model for several sectors such as healthcare, Ho.Re.Ca., retail and large-scale retailing, as well as cleaning contractors, construction industry, automotive sector, public and other institutions.

Antea 50 E/B

Antea is a walk behind scrubbing machine offering high performances for both maintenance and heavy duty cleaning of floors up to 2200 sq.m. It is available with a disc brush with 50 cm working width, with traction (BT version) or without (E/B version).

- Intuitive drive, with few and easy controls
- Versatility, thanks to the compact size it is ideal to meet the cleaning needs of several sectors
- Full accessibility to components for easier maintenance
- Energy saving and silent operation < 66 dB (A), thanks to Eco device (traction versions)
- Control of water and detergent consumption with CDS system (optional, only traction versions)
- Reliability over time and sturdiness are guaranteed by the new design and the new pressure die-cast aluminum frame.

Innova 55/22

Innova 55 B-ride on scrubbing machine, thanks to its very compact dimensions is able to replace a traditional walk behind scrubbing machine in maintenance cleaning of surfaces up to 3,000 sq. m. Innova 55 B is a ride on scrubbing machine with automatic traction, available in battery version with single disc brush of 56 cm working width.

It is available in basic version with the technology for consumption optimization and Eco ON/OFF System that automatically stops the brush and water flow when the machine is idle.

- Intuitive driving and simple controls
- Steering wheel of automotive inspiration to make it extremely easy to use
- Lowered footboard and access from both sides for increased practicality
- Extremely productive thanks to the 5.5 km/h cleaning speed

Innova Comfort 85 B M

Innova Comfort is suitable for working in areas characterized by the passage of a high number of people such as the public sector, educational establishments, swimming pools and supermarkets. In addition, it guarantees a reduction of waste and consumption because it is fully equipped with the full range of all of Comac's most innovative patented systems and technologies.

Using the Innova Comfort 85 M is extremely easy, in fact the squeegee and the brush head are controlled by two independent levers for very simple and immediate use making it a super affordable and durable option.

- Three different brush head types to get optimal results on any floor: with disc brush, cylindrical or with orbital pad
- Access from both sides for increased practicality
- Intuitive driving and simple controls

Innova 85/100B

Innova 85/100 B is a Battery driven Ride-On Scrubbing machine with a working width of 85/100 cm. It is suitable for maintenance cleaning of surfaces upto 5100/6000 sqm per hour and is one of the most safe, productive & user-friendly Scrubbing machine.

- Low centre of gravity for optimum stability.
- Automatic swing-in of the brush head when accidentally impacted
- Automatic squeegee uncoupling when accidentally impacted
- Best manoeuvrability even in narrow spaces thanks to tight turning diameter
- Easy & complete tank sanitizing

Optima 85B

Suitable for maintenance and thorough cleaning of medium to large size irregularly shaped areas. Extremely compact & maneuverable machine.

- Large capacity solution tank and excellent runtime of upto 4 hours on an average
- Step through driver seat design ensures safety & greater visibility
- Low noise level ensures greater acoustic comfort in noise sensitive environments
- Interchangeable scrubbing heads provide greater operating flexibility
- New age squeegee design gives greater drying efficiency, ease of maintenance and safe

C 85/100 B

The robust and powerful heavy duty scrubber drier suitable for working in different environments, both commercial and industrial. Working width of 85/100 cm. Area of performance up to 5100/6000 m²/hr.

- Raised and off centre working position for increased visibility during operations
- AC front wheel motor with anti skid wheels for proper grip
- LED headlights front and rear for maximum visibility
- Double suction Motor in Bright version for trace-free drying in one step

C 130 B/D/Bi-fuel

The robust diesel engine or battery powered heavy duty scrubber drier, suitable for cleaning large industrial areas, commercial premises, railway stations or airports. C130 has four disc brushes, to effectively scrub the floor with an adjustable pressure up to 180kg, and one cylindrical brush to convey dirt into the removable hopper, so that double cleaning action all along its 130cm working width is ensured. Equipped with electronic check control system.

- Touch screen display for choosing desired cleaning program.
- Hydraulic drum brakes for braking
- HDPE anti bacterial tanks for reliability
