TOP A 11 D

The specialized solution for picking up all dry debris and dusts. Equipped with paper bags for easy collection and disposal. Ergonomic design and sturdy body enables it to be used on all commercial and professional applications. There are possible options available for filtration like paper bag, dust bag and HEPA filter.

Unique Features:

- Triple Filtration System
- Large working radius with 15-meter Cordset
- Fast Changing Cordset System
- Warning Lamp to indicate 'Bag Full'
- Foot ON/OFF Switch
- Option to connect Electro Brush Accessories Holder
- Ergonomic Carrying Handle
- HEPA Cartridge Filter (Optional)

TMB BAT 18DM

The CUV 18 is a professional upright vacuum cleaner with working width of 45 cm. with its exclusive design it offers technological solutions that improve efficiency and comfort during use.

- Excellent stability and manoeuvrability due to low centre of gravity
- Adjustable brush height to suit the surface to be cleaned by means of a practical selector knob

Backpack

CA9 is a backpack vacuum cleaner very comfortable and handy to use. It can clean areas where conventional vacuum cleaners cannot be used such as buses, airplane cabs, trains or cinemas and theaters. CA9 is very comfortable to be carried, thanks to its low weight, ergonomic shape and padded shoulders. The convenient tool belt help to make cleaning even easier, since all the accessories are within easy reach.

- It is lightweight and ergonomic: with adjustable padded shoulders and tool belt
- It is handy: thanks to the 360° swivel hose
- It is efficient: with 4 filter system
- It is comfortable: the 15 m cable guarantees a large working radius
- It is effective: equipped with a set of nozzles to meet any kind of need

A550.3 WDM S

SHIFT & CLEAN Team Line has an innovative cleaning system of the cartridge filter available in the models with 2 or 3 motors, both with plastic and steel tank.

- Available with stainless steel tank
- Equipped with fixed trolley
- Optional frontal fixed accessory
- Standard sponge filter

Extract P 25

A very powerful, multifunctional & versatile injection and extraction machine. It can also be used for wet & dry vacuuming.

- High capacity tank allows a quick and continuative use.
- Compact professional & versatile design
- Detachable motor with protection filter
- Wide range of standard accessories for excellent cleaning.

Carpet

Carpet is the ideal machine for washing tapestries and carpets which uses the exclusive foam system and high-efficiency suction system.

- The dense and compact foam is dispensed through a brush or a large carpet brush which simultaneously allows adequate mechanical action intensifying the cleaning effect.
- The subsequent suction completely removes the product leaving an almost dry fabric.
- Recovery tank is equipped with the efficient AIR STOP filter which cuts down even the smallest residual foam flakes, preserving the integrity of the suction motor.

Diamant Inox

Professional steam generator with rugged steel body, patented built-in power socket, sleeve with zero volt or low voltage handle, practical handle, pivoting wheels, broad range of patented standard accessories, professional iron, and impact- and scratch-resistant rubber protection.

Key features:

- SS body
- Continuous refill

VC 6001

Compact, handy, powerful with "extraction cleaning" allows you to automatically add the detergent during the cleaning phase.

Key features:

- Steam cleaning with hot water or cleaning agent
- Wet and dry
- Carriage equipped with pivoting wheel with brake
